Award

Supply and Installation of Tanks and Liquid Storage Units

ANGLIAN WATER SERVICES LIMITED

UK6: Contract award notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-082104

Procurement identifier (OCID): ocds-h6vhtk-0514c7 ([view related notices](#))

Published 11 December 2025, 3:09pm

Scope

Reference

PA 2024 1140

Description

This procurement covers supply and installation of all liquid storage applications including gravity storage/process tanks, silos, pressure vessels, including chemical storage and underground storage. Where relevant, Reg 31, PER (Pressure Equipment Regulations) / PSSR (Pressure Systems Safety Regulations) and DSEAR (Dangerous Substances and

Explosive Atmosphere Regulations) regulations shall be followed.

Tanks shall be manufactured to relevant UK industry standards and comply with Anglian Water asset standards and AW amended WIMES and CESWI.

Covers and roofs shall be supplied where requested and, where required, all covers and roofs shall be fully self-supported by the tank.

Permanent Access Fabrications (PAFs), including stairways and platforms - access

stairways and platforms shall be fully self-supported by the tank Testing - tanks shall be fully water-tested and where a working pressure is specified (above ambient) the tank shall be pressure tested in accordance with UK industry standards and AW asset standards.

In the event of a defect or failure during the warranty period of 1 years, the supplier will be expected to repair or replace the product within one working week from the date on which they are notified regarding product failure. The supplier will be expected to provide temporary assets for the period required to maintain operations that were undertaken by the product whilst repair or replacement is being undertaken.

Installation - tanks shall be delivered to site, off-loaded and installed by the supplier and meet all relevant Anglian Water requirements for safe working.

Install of sectional tanks to be done by supplier, install of Pre-Cast Concrete tanks to be done by @one with supplier supervision. Supplier to detail the craneage requirements for off-loading and erection; craneage may be provided by supplier, AW or its Alliances.

Compatibility - tanks must be fully compatible for the application and contents that they are intended to be used for.

Design life and maintenance / inspection - Suppliers shall specify the design life of the tanks and ancillaries under the anticipated conditions and shall identify any maintenance requirements necessary to meet the specified design life. The design life is to achieve at least the minimum life stated in any applicable standards, where there is a conflict, the maximum life is to be achieved.

Ancillaries and openings - tanks shall be supplied with manholes, connections and ancillaries as detailed in the tank data sheet. All process equipment (including launders, baffle boards)

flanges, sockets and bolts shall be compatible with the fluids, interfacing materials and application of the tank.

Bunds - where integral bunds are required, these shall meet the same design standards and design life as the tank.

Design - the tank shall be designed to withstand dead loads, internal pressure, ground pressure load, wind and snow loadings, thermal effects, imposed roof load, loads due to equipment and fixtures.

Coatings - any coatings used shall be compatible with the fluids and application for which the tank is designed and meet the design life specified.

Commercial tool

Establishes a framework

Lot 1. Glass Fused to Steel Tanks

Description

Lot 1; See Description above for details.Quantities and value not yet known.

Lot 2. Glass Reinforced Plastic Tanks

Description

Lot 2; See Description above for details.Quantities and value not yet known.

Lot 3. Plastics Including PVC Tanks

Description

Lot3; See Description above for details.Quantities and value not yet known.

Lot 4. Polyethylene Tanks

Description

Lot 4; See Description above for details.Quantities and value not yet known.

Lot 5. Pre-Cast Concrete Tanks

Description

Lot 5; See Description above for details.Quantities and value not yet known.

Lot 6. Fabricated Mild Steel or Stainless Steel Tanks

Description

Lot 6; See Description above for details.Quantities and value not yet known.

Contract 1

Lots

Lot 1. Glass Fused to Steel Tanks

Suppliers (3)

- HAYES GFS LIMITED

- STORTEC ENGINEERING LIMITED
- TANK CONSULT LIMITED

Contract value

- £10,600,000 including VAT

Framework lot values may be shared with other lots

Above the relevant threshold

Award decision date

10 December 2025

Date assessment summaries were sent to tenderers

11 December 2025

Standstill period

- End: 22 December 2025
- 8 working days

Earliest date the contract will be signed

10 January 2026

Contract dates (estimated)

- 15 January 2026 to 14 January 2029

- Possible extension to 14 January 2031
- 5 years

Description of possible extension:

Contract extensions can be done at the end of the initial contract period for up to a further two years in total.

Main procurement category

Goods

Options

The right to additional purchases while the contract is valid.

Options can include additional items as well as the tank, for example connections, roofs.

CPV classifications

- 44611400 - Storage tanks

Contract locations

- UKE1 - East Yorkshire and Northern Lincolnshire
 - UKH - East of England
-

Contract 2

Lots

Lot 2. Glass Reinforced Plastic Tanks

Supplier

- FLOCKTONS T.V.P. LTD

Contract value

- £10,600,000 including VAT

Framework lot values may be shared with other lots

Above the relevant threshold

Award decision date

10 December 2025

Date assessment summaries were sent to tenderers

11 December 2025
