Description

00634 SELLAFIELD ENHANCED SPARES INSPECTION SYSTEM

Turnkey Cognex VisionPro Deep Learning inspection system designed to meet all requirements outlined in the URS. It uses a high-resolution 20-megapixel camera for the main inspection and a 2-megapixel alignment camera to support accurate part positioning, with consistent illumination provided by a flat dome light.

The system is housed in a compact enclosed cubicle with integrated operator access and display. Captured images are processed using Cognex Deep Learning tools to identify defects and deviations. This quotation includes the permanent Combined Run + Train license, PDF report generation functionality, all required hardware and software, and both initial operator training and advanced on-site deep learning training.
