### **Scope**

### **Reference**

OEP102-01-01

### **Description**

The objectives of this work are to provide a critical appraisal of the synergies and trade-offs of potential pathways towards achieving both the 2050 target for woodland and trees outside woodland, as well as increasing the sustainable management of woodlands and trees. These pathways will be appraised to determine the extent to which they support the achievement of wider key targets and commitments for biodiversity, net zero and timber production.
