Description

SWAG Cancer Alliance held an open innovation funding call for our innovation funding in 2024/25. The call was held in September/ October 2024 for bids of which this is one of the successful applicants for a real world evaluation. SWAG liaised with the Head of Procurement at NBT, who host SWAG, who was happy with the overarching process they did for this call. This project is for a service evaluation, not a procurement and Medtronic is aware that funding is not guaranteed at the end of the project, and that a full, open procurement would need to be completed by Gloucestershire if/when they look to commission this product in the future.
