Scope

Reference

OEP111-01

Description

The OEP is interested in understanding and advising how government might best act in order to improve prospects of meeting its targets and commitments for improving the natural environment, particularly the Environment Act 2021 species abundance targets. The objective of this work is to support our scrutiny of the role of river habitat improvements, and changes in the scale, pace and feasibility of such improvements, in order to meet these long-term targets.
