Scope

Description

United Kingdom Ministry of Defence (MoD), intends to award a follow on enterprise agreement to Palantir Technologies UK Limited (Palantir) for continued licencing and support to data analytics capabilities supporting critical strategic, tactical and live operational decision making across classifications across defence and interoperable with NATO and other allied nations Palantir systems.

Contract 1. MOD Palantir Enterprise Agreement

Supplier

- PALANTIR TECHNOLOGIES UK, LTD.

Contract value

- £240,600,000 excluding VAT
- £240,600,000 including VAT

Above the relevant threshold

Earliest date the contract will be signed

30 December 2025

Contract dates (estimated)

- 1 April 2026 to 31 March 2029
- 3 years

Main procurement category

Goods

CPV classifications

- 48000000 - Software package and information systems

Contract locations

- UK - United Kingdom

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Special regime

Defence and security

Direct award justification

Single supplier - technical reasons

It is considered that the contract can be awarded directly in accordance Section 41 of the Procurement Act 2023 together with paragraph 6 (absence of competition for technical reasons) and paragraph 7 (existing services where a change of supplier would result in disproportionate technical difficulties) of Schedule 5.

This is because MoD's data analytics capabilities use Palantir data analytics architecture that only Palantir is able to licence, and which only Palantir has the design familiarity and technical expertise to fully support. Changing supplier for this requirement would involve rebuild of the underlying data analytics architecture needing support; reaccreditation of the new solutions at the required security levels; and retraining of MoD personnel; at significant cost (including to the current level of capability and interoperability with NATO

and allied partners), diversion of resource, and disruption to in-train military operations and planning.
