Scope

Description

We have 4 x Scion PTM466 Camera's in need of servicing and repairs. It is believed at least one of these are damaged due to a rattling noised and damaged USB port cable so highly likely to attract additional maintenance cost. There batteries are not charging therefore it's impossible to tell if there are any issues with the other 3 units, it is not cost effective to purchase batteries as these are in the region of £190.00 each and therefore using common sense and sound judgement is advisable to allow the experts to carry out the relevant checks.

The requirement for the servicing is required ASAP.
