Participation

Particular suitability

Small and medium-sized enterprises (SME)

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

- Single supplier - technical reasons
- Additional or repeat goods, services or works - extension or partial replacement

Reinvigoration were originally engaged via a below threshold competition and has delivered significant value in the four months since the work began with Process improvements, identification of waste reduction, system enhancements and future productivity gains.

Since the initial competition and engagement with reinvigoration, the scope of the required improvement work has expanded considerably and beyond what was originally anticipated.

This extension is intended to cover further work to deliver on these additional improvement projects, leveraging Reinvigoration's existing knowledge of MDCs processes,

culture and previous work to avoid a costly ramp-up and learning that a new supplier would require.

A different consultant would not only have to start afresh in terms of understanding MDCs processes and losing the knowledge built up by Reinvigoration, but this would likely delay delivery of the overall process project due to onboarding a new supplier and risking inconsistency compared to the already delivered phases, with a potential for having to repeat work, undermining the benefits gained in our work with Reinvigoration.
