Description

NHS Blood and Transplant is leading a procurement for the provision and maintenance of a Parallel Bioreactor and associated consumables.

We are looking to appoint one (1) Supplier for the provision of this requirement.

The Clinical Biotechnology Centre (CBC) are committed to providing manufacturing capability for viral vector products used in cell and gene therapies. As part of the Medical Research Council funded network for innovation in gene therapies, the CBC anticipate onboarding multiple viral vector projects per year. To reduce the risk of failed batches in GMP manufacturing, the onboarding process, any GMP contracts will be subject to

intensive process definition at small scale prior to proceeding with GMP manufacturing contracts.

The required parallel small-scale bioreactor system is critical for the onboarding process in allowing the process development to characterise the operational space (experimental space) and its critical process parameters. A small-scale parallel enables these parameters to be established at reduces scale enabling a larger number of parameters to be established.

Contract 1. Supply of Parallel Bioreactor including Maintenance and Consumables

Supplier

- BioLogic Technologies Limited

Contract value

- £811,075.24 excluding VAT
- £973,290.28 including VAT

Above the relevant threshold

Award decision date

18 December 2025

Date assessment summaries were sent to tenderers

19 December 2025

Standstill period

- End: 5 January 2026
- 8 working days

Earliest date the contract will be signed

12 January 2026

Contract dates (estimated)

- 19 January 2026 to 18 December 2031
- Possible extension to 18 December 2036
- 10 years, 11 months

Description of possible extension:

Possible five extensions in twelve monthly increments for a maximum contract duration of ten years.

Main procurement category

Goods

Options

The right to additional purchases while the contract is valid.

Possible five extensions in twelve monthly increments for a maximum contract duration of ten years.
