Scope

Reference

UKRI-4991

Description

HRPD-x (High-Resolution Neutron Powder Diffraction) project is an upgrade to the existing HRPD facility in Daresbury Laboratory. This upgrade will include a new non-magnetic sample tank, a new complement of detectors and a new building to house the larger and more capable instrument. The HRPD-x vacuum vessel is a central component of the instrument, and it consists of two main components: a large rectangular section and circular front end.
