Description

Located on the Harwell Science and Innovation Campus in Oxfordshire, Diamond Light Source (DLS) is a leading-edge facility for science, engineering and innovation. Diamond allows researchers from academia and industry to investigate the structure and behaviour of the world around us at the atomic and molecular level.

To continue delivering the world-changing science that Diamond enables, the facility is being upgraded to Diamond-II, a co-ordinated programme of development that combines a major machine upgrade with new instruments and complementary improvements to optics, detectors, sample environment and delivery capabilities, and computing, as well as integrated and correlative methods. This will be transformative in speed and spatial resolution and will offer users streamlined access to enhanced instruments for life and physical sciences.

The scope of the contract is to manufacture 103 supports structure assemblies which support the primary electron beam position monitor (PEBPM) bellows assemblies (not in scope of this specification); the stand is shown in the image below. The support comprises of 4 low thermal expansion coefficient iron nickel alloy (Invar 36/1.3912) rods welded to a baseplate of the same material; the rods are braced by stainless steel plates clamped to all 4 rods at intervals along the rod's length. The top of the rods provides an interface and mechanism for adjustment of the PEBPM position in all 6 degrees of freedom.

The supplier shall deliver four pre-series supports to DLS for approval prior to welding of the remaining 99 stands, it is acceptable to produce all subcomponents prior to this.

The contract includes:

- Contract management
- Purchase of all materials.
- CTE Test piece.
- Manufacture of 103 Support assemblies.
- All jigs and tooling required for manufacture.
- Cleaning.
- Quality assurance documentation
- Packing
- Delivery

Contract 1. 9003417 - Supply of Primary Electron Beam Position Monitor Supports

Supplier

- Revol TT Consulting, s.r.o.

Contract value

- £846,454 excluding VAT
- £1,015,744.80 including VAT

Above the relevant threshold

Award decision date

19 December 2025

Date assessment summaries were sent to tenderers

19 December 2025

Standstill period

- End: 5 January 2026
- 8 working days

Earliest date the contract will be signed

9 January 2026

Contract dates (estimated)

- 9 January 2026 to 8 January 2027
- 1 year

Main procurement category

Goods

CPV classifications

- 44400000 - Miscellaneous fabricated products and related items

Contract locations

- UKJ14 - Oxfordshire

Information about tenders

- 5 tenders received
- 5 tenders assessed in the final stage:
 - 5 submitted by small and medium-sized enterprises (SME)
 - 0 submitted by voluntary, community and social enterprises (VCSE)
- 1 supplier awarded contracts
- 4 suppliers unsuccessful (details included for contracts over £5 million)
