## **AI platform for use by Staff and Students at The University Of Kent**

The University Of Kent

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-084889

Procurement identifier (OCID): ocds-h6vhtk-05fa54 ([view related notices](#))

Published 19 December 2025, 12:42pm

### **Scope**

### **Reference**

MR25\_009

### **Description**

The University of Kent is procuring an enterprise-grade Generative AI platform to support teaching, learning, research, accessibility, and operational efficiency. The platform must provide a secure, institutionally governed AI environment; support student learning and staff productivity; reduce institutional risk; and enable scalable, compliant AI use across the university.

### **Total value (estimated)**

- £2,000,000 excluding VAT

- £2,400,000 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 1 April 2026 to 30 March 2028
- Possible extension to 30 March 2031
- 4 years, 11 months, 30 days

### **Main procurement category**

Goods

### **CPV classifications**

- 48000000 - Software package and information systems

### **Contract locations**

- UKC - North East (England)
- UKD - North West (England)
- UKE - Yorkshire and the Humber
- UKF - East Midlands (England)
- UKG - West Midlands (England)
- UKH - East of England
- UKI - London
- UKJ - South East (England)

- UKK - South West (England)

---

## **Engagement**

### **Engagement deadline**

17 December 2025

The engagement was carried out before this notice was published.

### **Engagement process description**

The University Of Kent has held a number of meetings and discussions in respect to exploring the current market conditions, technological position and advancements, potential future developments in the AI market, potential interested suppliers, potential contract models, likely outcomes and how this would impact upon staff, student, and other operational experiences, with the aim to creating a market ready, and practical description of the current and future situation, the requirements of the institution, and not to over- or under-specify the solution so that it is achievable, practical, scalable, affordable, and technically deliverable. Given the speed of development, innovation, and novel nature of the supply sector, this dialogue has occurred with two major providers in the market to ensure that the package taken to market is successful in meeting our requirements. Dialogue commenced in approximately October 2025 and concluded December 2025 before publication of an intended Request For Proposal using the Competitive Flexible Procedure given the nature and speed of change in the AI Sector.
