Scope

Description

This evidence pack provides updated analysis to build on previous evidence published for CST on GOV.UK. It serves as a key resource for briefings, reports, and ministerial communications on UK investments across DSIT. The proposed work delivers novel and unique insights that are critical for ministers to reference publicly and to strengthen the evidence base on access to finance in the UK. Following a review of alternative investment data providers, DSIT have determined that this is the only supplier capable of delivering the specific metrics and analysis required for this evidence pack.
