Scope

Reference

MR25_009

Description

The University of Kent is procuring an enterprise-grade Generative AI platform to support teaching, learning, research, accessibility, and operational efficiency. The platform must provide a secure, institutionally governed AI environment; support student learning and staff productivity; reduce institutional risk; and enable scalable, compliant AI use across the university. Full details are available in the documentation. Due to the academic timetable, there are limited opportunities in the year to implement with a target date of approximately April 2026.

Total value (estimated)

- £2,000,000 excluding VAT
- £2,400,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 27 February 2026 to 1 April 2028
- Possible extension to 1 April 2031
- 5 years, 1 month, 3 days

Description of possible extension:

3 x 12 month extension options to be exercised at the Authority's discretion.

Options

The right to additional purchases while the contract is valid.

nature of the solution is likely to evolve and change over the contract length and therefore the specification and deliverables are likely to change.
