Description

The imaging equipment in the Biological Services Unit (BSU) is no longer fit for purpose.

Therefore, the department requires to purchase an In Vivo Optical Imaging System.

The equipment will serve multiple users, open to anyone with permissions to conduct such regulated work and support for multi-spectral luminescence/fluorescence imaging capability at QUB.

In vivo imaging is leading edge in animal research, aligning with commitment to 3Rs and QUB priorities in delivering research excellence.

- Please note: - The execution of this tender & contract will be solely dependent on grant funding being received, which is estimated to be confirmed in November 2025.
 - No award will be made, or orders issued until the grant funding has been confirmed. If grant funding is not secured, the market will be notified, and this procurement exercise will be stood down.
