Lot constraints

Description of how multiple lots may be awarded:

This Grounds Maintenance procurement is made up of 2 lots. Lot 1 contains 76 of the 78 properties, whilst Lot 2 contains just 2 properties situated in Settle and Ingleton. SACS recognise that the properties in Lot 2 are located a significant distance from the rest of the properties to be serviced under the contract and have therefore made bidding for Lot 2 optional.

Contractors MUST tender for Lot 1; it is a condition of participation in the ITT. We recognise that the 2 schemes in Lot 2 are geographically very distant from the Lot 1 properties. Therefore, bidding on Lot 2 is entirely optional. We will Score Lot 1 for both quality & price and rank contractors in order, and only then will we evaluate Lot 2 pricing.

In the event that the 2 most advantageous tenders for Lot 1 do not submit Lot 2 pricing we will not evaluate Lot 2 pricing, we will procure the Lot 2 services independent of this ITT.
