II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £177,600

II.2) Description**II.2.3) Place of performance**

NUTS codes

- UKE - Yorkshire and the Humber

II.2.4) Description of the procurement

The force currently utilises Ivanti Device and Application Control version 5.1 to manage access to removable media across all environments. Previously, the force renewed the contract year on year, this agreement will lead to significant savings in costs and resources. A 3-year contract for 10,000 licenses will be set up to support future growth as more personal issue devices are deployed. Separate deployments and contracts were previously established for SYP and HP. An imbalance in licenses between the two forces has prevented an upgrade to the latest version of Ivanti, as newer versions enforce stricter license compliance. Proceeding with the upgrade under current conditions would result in many HP clients being disabled due to insufficient licensing.

This procurement will bring the separate deployments and Force contracts into one single contract and will work with the successful bidding supplier from lot 2 of the WYCA IT framework. They will engage with Ivanti to consolidate all licenses for both SYP and HP under a single contract. This will enable the implementation of a unified solution with force-specific policies, ensuring compliance and facilitating future upgrades.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No
