Scope

Description

North Northamptonshire Council (hereafter referred to as "The Council") invites quotations for the provision of the Dental Epidemiology Programme.

Local authorities are responsible for gathering information on the health needs of their local populations. This imperative is described in the Health and Social Care Act 2012, underpinned by Statutory Instrument 2012 number 3094.

Each year, OHID publishes a National Protocol which identifies the target population group and provides a description of the standardised methods that fieldwork teams should use when undertaking the main survey.

The population group for the 2025/26 survey will be 5-year-old children attending mainstream schools. This survey will use the same sampling frame as previous surveys to allow statistical comparison at local authority level. The surveys are currently the only measures we have of oral health at local authority geography and the national programme produces robust information that is comparable across local authorities offering benchmarking and an overall national picture.

The population group for the 2026/27 survey will be confirmed by the National Protocol as

published for the new survey year.
