

Rev A 30/09/25:
 Corridor walls and doors added, room labels added. Fridge, Dishwasher and double oven unit location added.

Rev B 08/10/25:
 Double built in oven and unit omitted, stand alone 900mm double oven with integrated hob included, extractor hood size increased. Possible location of fire door included to corridor.

Re-Purposed electric double oven with ceramic hob 900mm extractor hood over. Extractor hood to provide minimum of 30L/sec extraction rate.

Internal Opening Blocked up Using lightweight concrete block. Laid on DPM at FFL, Simpson starter ties at 450mm centres to both existing knibs.

New Basin to W/C

New door or modify existing door to be hung on RH jamb to allow for more acceptable space within W/C

New opening formed in Blockwork To accept new FD30 frame and door

Proposed location of new FD30 door to corridor TBC
