### **OPEN PROCEDURE**

#### **Bidder Guidance:**

1. The “authority” or “we” or “us” means the named Contracting Authority or anyone acting for and on behalf of the Contracting Authority, that is seeking to invite suitable organisations to participate in this procurement process.
2. “You” / “Your” refers to the potential Bidder completing this standard Conditions of Participation Questionnaire i.e. the legal entity responsible for the information provided. The term “ Bidder(s) and Supplier(s)” is intended to cover any economic operator as defined by the Procurement Act 2023 and its associated regulations that apply to this procurement (referred to as the “regulations”) and could be a registered company; the lead contact for a group of economic operators; charitable organisation; Voluntary Community and Social Enterprise (VCSE); Special Purpose Vehicle; or other form of entity.
3. Please ensure that all information in relation to the Conditions of Participation Questionnaire are as required contained on the CDP, prior to the bid closing date / time and any specific questions contained herein are completed in full, and in the format requested. If any question does not apply to you, please state ‘N/A’. Should you need to provide additional information in response to the questions in section 3 of this document, please submit a clearly identified annex (as requested/applicable).
4. The authority recognises that arrangements set out in section 1 &.2 on the CDP and potentially section 3 of the Conditions of Participation questionnaire contained herein, in relation to a group of economic operators (for example, a consortium) and/or use of sub-contractors, may potentially be subject to change due to say e.g. a mandatory or discretionary ground or debarment status. The lead contact should notify the authority immediately of any change in the proposed arrangements, as provided in your submission. Any failure to notify the Contracting Authority may be considered, depending upon the individual nature and circumstances of the change by the Contracting Authority, as providing misleading or false information and may lead to your bid submission being excluded from further consideration for any award.
5. It is essential that all Bidders ensure before bidding, that your entire bid proposal (Consortia / Partnership / SPV including subcontractors) does not fail the regulations

test of “Debarment”, “Excluded”, “Excludable”, including Associated Persons and or Persons of Significant Control grounds. Bidders should also refer throughout the procurement documents for additional Bidder assistance and guidance and seek formal clarification via the eSourcing platform if you are at all unsure.

The Contracting Authority may decline to consider bids (or otherwise exclude from participating in the procurement) from suppliers who are constituted or organised under the law of Russia or Belarus, or whose ‘Persons of Significant Control’ information states Russia or Belarus as the place of residency, unless the supplier (or any member of their supply chain they rely on to deliver the contract):

- is registered in the UK or in a country the UK has a relevant international agreement with reciprocal rights of access to public procurement; and/or
- has significant business operations in the UK or in a country the UK has a relevant international agreement with reciprocal rights of access to public procurement.

Bidder guidance: For the mandatory exclusion grounds only, you must complete the declaration for all relevant persons and entities. There are two categories of persons and entities:

- members of your administrative, management or supervisory board;
- entities and persons who have powers of representation, decision or control.

You must decide, depending on the nature and structure of the entity or person who is bidding, which entities and persons this applies to in your particular circumstances. Clearly, members of your administrative, management or supervisory board should be easily identifiable and will cover company directors (or equivalent for other types of corporate entities) and members of an executive board.

The second category of those with powers of representation, decision or control, is likely to be more complicated. As an illustration, entities or persons with 25% or more shareholding (or equivalent for other types of corporate entities) are likely to have powers of representation, decision or control, although those with a lower shareholding may still have the relevant powers depending on their particular rights. Similarly, your ultimate parent company (or equivalent for other types of corporate entities) is likely to have powers of representation, decision or control. Depending on your particular structure, intermediate parent companies who do not have a direct shareholding, directors or members of an executive board of your immediate parent company (for example in the case of an SPV set up specifically to bid for a particular contract), and holders of mortgages or liens may be covered. It isn't necessary to identify which entities and persons you think are covered but you must be satisfied that your declaration is made in respect of all of those that are covered.

Bidder Guidance: Bidders should refer to PPN 007 via the following link for more background and guidance via the following link, if you are in any doubt as to the Contracting Authorities obligations. This PPN does not affect other rights of exclusion via the Legislation associated with this procurement opportunity.

The Public Procurement Review Service that forms part of the Procurement Review Unit allows government Suppliers and potential government Suppliers to raise concerns anonymously about unfair public sector procurement practice. The government can then investigate and resolve these concerns for Contracting Authorities. The Contracting Authority confirms that it will keep confidential and will not disclose to any third parties any information obtained from a named Bidders customer contact, other than to the Cabinet Office and/or Contracting Authorities obligations hereby advised herein and defined by the regulations, or pursuant to an order of the court or demand made by any competent authority or body where the authority is under a legal or regulatory obligation to make such a disclosure e.g. a Freedom of Information Request.

## 5.1. Qualification / Conditions of Participation Questionnaire

5.1.1. Bidders should note that the Conditions of Participation for Parts 1&2 of this procurement procedure require your organisation that intends to bid for this procurement opportunity to register its details on the CDP as a condition of participation.

**Guidance on how to register and use the CDP are via the following link**

[Find high value contracts in the public sector - GOV.UK](#)

Bidder guidance:

For absolute clarity a condition of participation is a mandatory requirement in order to be considered for this procurement opportunity.

Bidders must ensure that they provide as a condition of participation prior to the bid submission deadline on the CDP:

- identification of the Bidders associated person(s); and confirmation that each associated person's information, connected person(s), and exclusion grounds information has also been shared via the CDP, which may require you to provide this in a PDF format to the Contracting Authority if interoperability between the CDP and the E-Sourcing provider is not functional, at the time the procurement is run and a confirmation of the Bidders intended sub-contractors names..

Prime/main Bidders must complete the following steps prior to the bid submission deadline:

- \*Register on the CDP (create a PDF if interoperability is not functional)
- submit their most up to date core Bidders information on the CDP, This includes the Bidders:
  - basic information
  - economic and financial standing information
  - connected person information
  - exclusion grounds information (this includes exclusion information about the Bidders and its connected persons)
- provide that information to the Contracting Authority via the CDP by securing a unique Identifier number / PDF submission.

\*Associated persons do not need to share their economic and financial standing information (unless relied upon to meet conditions of participation related to financial capacity).

If Prime/main Bidders, intend to rely on other Bidders to meet a condition of participation, must ensure that these other Bidders submit and share their connected person and exclusion ground information via the CDP, prior to the bid submission deadline as well.

Bidders that may be consortium members or sub-contractors and, so long as they are not guarantors, they are classified as associated persons. Contracting Authorities are obliged under the procurement Act 2024 to determine if a prime/main Bidder is an excluded or excludable Bidders by virtue of an associated person being an excluded or excludable Bidder (see section 57 of the Procurement Act 2024). Collecting an associated person's relevant information via the CDP / PDF will support Contracting Authority in determining this, otherwise it will not be possible for the Contracting Authority to evaluate your bid submission. It is essential as a condition of participation that this is done prior to the bid submission deadline.

The Contracting Authority hereby advises and declares to all bidders that as a condition of participation, any organisation bidding accepts without reservation that, that for any bidders awarded a contract, certain details about connected person(s) information must be published in the contract award notice (under regulation 27).

Please note that the Contracting Authority does not have any involvement in regard to the Running and or maintenance control over the CDP, therefore any queries in regards to using this system will need to be via the Cabinet Office CDP Technical help options.

- 5.1.2. Bidders should note that the balance of the procurement opportunities specific Conditions of Participation and Specification, plus award-based questions is located within the **eSourcing Portal**.

**Guidance on how to register and use the eSourcing portal is available at**

**<https://beisgroup.ukp.app.jaggaer.com/>**

In any statement of mitigating actions, Bidders are to outline how they propose to achieve a robust, impartial and credible approach to the procurement.</p> <p>The information received will be subject a Pass or Fail, according to whether based on the information provided there remains a conflict of interest which may affect the impartiality of the procurement opportunity and the deliverables.</p> <p>Failure to declare or avoid a conflict of interest at this or a later stage may result in exclusion from the procurement process.</p> <p>Any Bidder selecting 'No with Justification' to AW3.2 and failing to upload an attachment to this question detailing the information above may not be considered further for this opportunity.</p> <p>Bidder guidance: Under the PA2023 and the TPR2024 and its associated legislation the Contracting Authority is obliged to maintain a monitor of Conflicts of Interest during the performance under any contract awarded. <b>PROJ1.3</b>	<b>Approach/Methodology - Scenarios</b>
Bidder Guidance	<p>In order to assess a variety of capability requirements required by the M&amp;E teams, please respond to each of the scenarios detailed below. You are required to outline how you would approach each of the three hypothetical projects below.</p> <p>All projects listed below are fictitious and indicative of the work required under this contract; it is not anticipated that they are carried out under this contract.</p> <p><u>Scenario 1</u></p> <p>Great British Energy (GBE) is a new, publicly owned clean energy company with a mission to power Britain with clean, secure, home-grown energy and to become a global leader in clean energy. GBE will be investing in local energy production infrastructure to support and empower communities. Delivery partners for this local energy investment programme will include local government, third sector, and community groups, who in turn will work with suppliers to instal new energy production infrastructure.</p> <p>DESNZ/GBE are keen to explore bill savings, carbon savings and community impact, with a particular focus on material or financial community benefits, and positive attitude toward community energy infrastructure. DESNZ also wishes to understand the value for money of the local energy programme.</p>

	<p>You have been commissioned to produce a Monitoring &amp; Evaluation plan which will be submitted alongside an internal business case.</p> <p>Please outline how you would approach this project, please note an M&amp;E plan proportionate to the policy should include:</p> <ul style="list-style-type: none"> <li>• A clear statement of how evidence will be used, including new and existing evidence,</li> <li>• Monitoring and evaluation questions,</li> <li>• Proposed data sources and data management considerations,</li> <li>• Outline of evaluation approach and methodology,</li> <li>• Estimated resourcing, budget and timeline for delivery,</li> <li>• Approaches to identifying and managing risks,</li> <li>• Considerations of working with a range of delivery partners,</li> <li>• Statement of any uncertainties in the methodology, including how they will be resolved</li> </ul> <p>Timeline: The M&amp;E plan is required for submission alongside the business case in 12 weeks.</p> <p><u>Scenario 2</u></p> <p>Recent government investment, such as the Ideal Heat Pump Acceleration Project and the Compressor Capacity Extension Project aim to expand domestic manufacturing capacity for key heat pump components. These interventions are designed to strengthen UK supply chains and reduce reliance on imports as part of the clean energy transition.</p> <p>You have been commissioned to deliver a rapid evaluation to assess the early supply chain impacts of one such investment. The purpose is to provide timely evidence to inform decision-makers about whether the interventions are supporting supply chain resilience, increasing UK production capacity, and delivering value for money.</p> <p>There is a limited time to produce this evidence, so you will need to draw on existing research and if necessary, light-touch primary research to fill urgent knowledge gaps.</p> <p>Please describe how you would approach this project. In your response, outline:</p> <ul style="list-style-type: none"> <li>• How would you scope, and structure rapid evidence reviews in this context?</li> <li>• How you would decide whether primary research is needed and how you would design it within the time constraints.</li> <li>• How would you ensure the evidence gathered is robust enough to inform policy decisions, despite rapid turnaround.</li> <li>• How would you explain your findings to the decision-makers in a clear and usable way.</li> <li>• Any potential risks or challenges you would anticipate and how you would mitigate them.</li> </ul> <p>Timeline: Emerging findings for internal use from the rapid evidence review needs to be delivered in 16 weeks.</p>

### Scenario 3

Kickstarting economic growth is one of the Government's 5 missions. The scale of the net zero transition will require rapid reskilling and presents a significant opportunity for good job creation. Currently the measure of job impacts as part of monitoring and evaluation is patchy and inconsistent. We are keen to strengthen our measurement of job and economic impacts of our policies.

The department is seeking to improve the consistency and methodological rigour in how it evaluates the impact of its projects and policies on jobs. Currently, different teams use varying approaches and there is no agreed 'best practice' for measuring job impacts across the department.

Aside from the data inconsistency, there are challenges in identifying a suitable counterfactual for evaluation and establishing causality particularly when exploring job and productivity impacts. Macro level economic modelling helps to anticipate job impacts, covering indirect supply chain effects and multipliers, however, it is harder to evaluate actual job or productivity impacts from policies/programmes.

You have been commissioned to undertake a methodological development project that will help the department become more consistent in its approach. Your task is to conduct a review of existing job impact evaluation methods used across different teams, assess their strengths and weaknesses against defined set of criteria, identify gaps and limitations and develop practical recommendations for future use.

Please describe how you would approach this project. In your response, outline:

- The steps you would take to conduct the review and gather the necessary information.
- How you would engage with different teams and stakeholders.
- The methods you would use to assess the effectiveness of current approaches.
- How you would develop and present your recommendations in a way that supports consistency and usability across the department.
- Potential challenges you anticipate and how you would address them.

Timeline: An evidence review and methodological plan is required in 20 weeks.

This question is limited to 9 side of A4. **Any additional content provided beyond this will not be considered or scored during the evaluation process.** Responses should be submitted in Font Arial 11pt using single line spacing and normal margin setting 2.54cm

Bidder Guidance	<p>Bidders are required to complete the attached AW5.2 Pricing Schedule with the Rates that would be applicable to this Contract and the Scenarios 1, 2 and 3 detailed within.</p> <p>All prices shall be in £ GBP and exclusive of VAT.</p> <p>All costs appearing elsewhere in the Bid but not mentioned in this Pricing Schedule shall be presumed waived.</p> <p>The scoring methodology for this question shall be:</p> <p>Price will be evaluated using proportionate pricing (lowest bid / bid * mark). A Bidder's score will be based on the lowest total score received divided by their total cost and then multiplied by the marks available.</p> <p>For example, if the total basket price for three bid responses is received and Bidder A has quoted £50,000 as their total price, Bidder B has quoted £80,000 and Bidder C has quoted £100,000 then the calculation will be as follows:</p> <p>(Maximum marks available in this example being 12.5)</p> <p>Bidder A Score = <math>50000/50000 \times 12.5 = 12.5</math>          Bidder B Score = <math>50000/80000 \times 12.5 = 7.81</math>          Bidder C Score = <math>50000/100000 \times 12.5 = 6.25</math></p> <p>This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criterion, but will still be subject to a commercial review.</p> <p>The lowest score possible is 0.</p>
