

L Hangars - Access requirements

During the period of works, SMG staff and third parties may require access for the activities below.

NB Any access will be agreed in advance and co-ordinated with the principal contractor.

Security

- 24/7 access enabled for security patrols and checks - mitigation of loss due to eg water ingress, fire, humidity etc.
- Access to the Fire Alarm Panel
- Access to Manual Call Points situated around the building
- Access to all fire doors
- Access to the hangar doors in case of emergency situations.
- Potential access to power distribution in case of emergencies.

Other

- L2 - Consolidation will be working inside the hangar during the works and access will be at the opposite end to the doors being replaced.

Estates (via maintenance contractor, CBRE)
