UK Export Finance (UKEF): General Aerospace Legal Panel (GALP) Framework Requirement (Reference UKEF0641) (the “GALP Framework Requirement”)

Thank you for your interest in the GALP Framework Requirement.

UKEF have reviewed the responses to the Request for Information (RFI) and would like to provide an update on the feedback received:

- 1) UKEF noted that respondents would welcome/benefit from a virtual market engagement session. To this end, UKEF will be scheduling an event following publication of the Tender Notice. This will allow respondents to request clarifications directly from UKEF as part of the procurement procedure. Details of this event will be published in the Tender Notice.
- 2) Respondents stated they would appreciate evaluation criteria for the procurement procedure to be clear and precise. The full criteria will be published when the Tender is launched, however, UKEF is reviewing this to ensure it is clear and assessments are clearly linked to a specific skill and/or specialism which forms part of the specification.
- 3) UKEF notes respondents' views on the issue of Unlimited Liability and is considering these as it drafts the Terms and Conditions of the contract. To note, UKEF may find it difficult to incorporate all suggestions on this matter, given the nature and context of the services required.

UKEF is now working on the next stages of the procurement process and as per the requirements of the Procurement Act 23, all updates will be published on Find a Tender (FTS)/Central Digital Platform.
