

**GENERAL NOTES**

1. DIMENSIONS ON THIS DRAWING SHALL NOT BE SCALED.
2. ALL DIMENSIONS TO BE CHECKED ON SITE.
3. ALL DIFFERENCES BETWEEN THIS DOCUMENTATION AND CONDITIONS ON SITE MUST BE IMMEDIATELY REPORTED TO ENGINEER.
4. ALL TEMPORARY WORKS ARE TO BE DESIGNED AND CARRIED OUT BY APPOINTED CONTRACTOR.

**Boarding of existing attic space:**  
 - Loft area shaded blue to be boarded over with new timber joists and chipboard deck. (Area approx 4.2m wide)  
 - New timber joists to be installed parallel to existing ceiling joists, spanning between existing truss bottom chords, on joist hangers.  
 - 45 x 120 C24 timber joists at 400mm centres.  
 - 18mm P5 chipboard deck over.  
 - Refer to detail 01 drawing S30.

4No. principal trusses equally spaced along roof at approx. 3-3.1m centres

Walkway access steps over low level services, positioned to avoid principal truss members. Formed in timber studwork by contractor.

New high level services installed within roof space to be suspended from principal truss members only, using hangers and secondary support system, to be designed by contractor.

No additional load to be placed on existing rafters or purlins.

New low level services to be supported by new ceiling joists and truss bottom chords. Refer to detail 02 drawing S30.

Existing ceiling joists span between principal truss bottom chords: 50 x 100 at 400mm centres.

CDM note - possible location for temporary access to roof plant and equipment. Contractor to liaise with client to agree access provision, scaffolding etc.

CDM note - access route to be kept clear for maintenance and plant replacement.

New walkway to be aligned with existing loft hatch. Existing loft hatch retained

CDM note - Contractor to maintain means of escape from neighbouring property
